

POLICY ON WATER MANAGEMENT

Document Version Control Note		
Name of Document	Policy on Water Management	
Policy number	ESG / Corp / Policy on Water Management / 002	
Original Version Release Date	1 st April 2024	
Current Version: 02	Reviewed on: 1 st April 2025	Next Review on: 1 st April 2026

1. INTRODUCTION AND PURPOSE

Water is a critical resource essential for life, economic development, and the environment. Recognizing its importance, Sigachi Industries Limited commits to optimizing processes to enhance freshwater availability for other uses while maintaining water and steam quality to ensure equipment efficiency and reliability. Sigachi pledges to proactively conserve this vital resource and address water sustainability through this policy.

2. SCOPE

This policy outlines Sigachi Industries Limited's commitment to responsible water management across all operations. It applies to all facilities, employees, and stakeholders involved in our water use and management processes.

3. OBJECTIVE

Sigachi aims to become a leader in water efficiency within the healthcare industry.

Our objectives are to:

- 1. Legal Compliance:** Comply with all relevant local, national, and international water-related regulations.
- 2. Water Quality Protection:** Ensure that our activities, processes and/or discharges do not compromise the quality of water resources.
- 3. Continuous Improvement:** Continuously monitor, review, and improve our water management practices.
- 4. Minimize Our Water Footprint:** Implement strategies to reduce our overall water usage.
- 5. Maximize Water Recycling:** Enhance water recycling efforts across all units to conserve resources.

Corporate Office

Plot No. G57/2, Industrial Park, Sultanpur, Hyderabad, Sangareddy (Dist), Telangana - 502319.
Tel No.: +91-8455-242055 / 56 / 57, E-mail: enquiry@sigachi.com, URL: www.sigachi.com

6.Enhance Water Efficiency: Implement measures to improve water efficiency and reduce consumption.

7.Promote Sustainable Water Use Practices: Optimize water consumption, reduce wastage, and encourage sustainable water use practices within our organization and among our stakeholders.

8.Mitigate Water-Related Risks: Identify and address potential water-related risks to our operations.

4. WATER STEWARDSHIP

Sigachi commits to:

1. Set midterm/long term targets to improve water efficiency and reduce freshwater intake per unit of production.
2. **Monitor and track** water withdrawal, consumption, recycling, and discharge at all operational sites.
3. **Maximize reuse and recycling** of treated water through in-house or third-party facilities.
4. Ensure wastewater is treated as per applicable **regulatory standards** before discharge.
5. Conduct **regular water audits and implement** identified improvements.
6. Engage employees in awareness initiatives to promote responsible water usage.

5. MONITORING AND REVIEW

Water management performance will be monitored regularly. This policy will be reviewed annually by the ESG function to incorporate improvements, regulatory changes, and best practices.
